## Experience

### Ruminare

*Art Director* September 2018-present

Develop the overall brand, and lead the charge on all branded materials, print and web. Produce a social media strategy, art direct photo shoots, and build the website. Utilize behavioral economics and design to break down complex problems and find effective solutions within the food system.

### rk Design & Photography

*Freelance Photographer & Designer* Fall 2008-present

Create freelance work on a variety of projects, including websites built in WordPress and Squarespace, various web-based ads and illustrations, and event and portrait photography.

### Expect Miracles Foundation

*Graphic Design Manager* March 2015-February 2018

Developed the EMF brand and produced all internal and even-specific design materials for the organization. This included branding materials (e.g. logos, style guides), print collateral (e.g. banners, easel signs, program booklets), and digital collateral (e.g. event invites, emails, social media posts). Developed design timelines and managed relationships with multiple printers. Lead design meetings and team trainings. Updated and built website content within the Joomla! CMS.

### EnerNOC

*Web Design Consultant* March 2014-January 2015

Redesigned and implemented various websites and web-based collateral, including international web sites, interactive infographics, videos for the web, and event microsites. Worked in a variety of content management systems, such as Drupal and Cvent, along with hand coding in both HTML, CSS, and PHP to create clean code and optimize UI/UX.

### eClickonomy

*Senior Web Designer* July 2013-December 2014

Redesigned client websites to meet current web trends and standards by utilizing UI/UX, responsive design, and jQuery. Responsible for new blog graphics and ad styles.

### Seva Mandir

*Web Designer & Field Photographer* August 2012-August 2013

Designed and developed a WordPress based non-profit website with a custom theme. Hand-coded templates and edited plugin script. Held WordPress training for the team.

### Group Project Design, LLC

*Senior Web Designer* June 2012-July 2013

Designed, hand coded, and set up content management systems for a variety of small businesses and start-ups, including restaurants and interior design and architecture firms. Held multiple staff web design and WordPress training sessions.

### Indigenous Education Foundation of Tanzania

*Graphic Designer & Web Developer* September 2011-January 2013

Performed a visual rebrand for the organization. Created and designed a new website, a new logo, print materials for sponsors and volunteers, and a style guide for the organization.

### Jessica Sutton Graphic Design

*Design Intern* January 2011-January 2012

Performed a variety of duties including type-tests, logo design, web layouts, database organization, and created physical and digital mock-ups. Produced new blog layouts, banner ads, and both client-based and in-house printed materials.
